

Course Syllabus

1. Course Title:

Urban design project 5. Designing an Environment Based on the Concept of Identity

2. Academic Level:

Master

3. ECTS Credits:

4 ECTS

4. Semester:

3, Autumn semester

5. School/Department:

Academy of Architecture and Fine Arts

6. Location:

75/78, Maxim Gorky Street, Rostov-on-Don

7. Instructor:

Professor Julia Gorgorova email: ygorgorova@sfedu.ru

8. Language of Instruction:

English

9. Course Description:

During the course, students gain theoretical knowledge in the field of architectural design, as well as research skills in specific practical situations. The study of the discipline involves both classroom and independent work of the student

10. Course Aims:

To prepare undergraduates for modern knowledge and skills of analytical, scientific and methodological, research and practical activities in the field of architectural design

11. Specific entry requirements (if any):

-

12. Course Content:

Module 1. Justification of the functional, technological and volumetric-spatial structure of the object
Module 2. Search for models of the ideal architectural and planning structure of an object
Module 3. Space-planning solution of the object
Module 4. Project design and protection

13. Intended Learning Outcomes:

Students are expected to create a graphic design of the experimental project

14. Learning and Teaching Methods:

Lecture, project supervision, demonstration, practical classes and workshops

15. Methods of Assessment/Final assessment information:

Pass/fail examination + course project

16. Reading List:

1. New Urbanism Best Practices Guide [Электронный ресурс] Robert Steuteville, Philip Langdon, and Special Contributors New Urbanism Best Practices Guide 2009, NY
