*A strong desire to study economics in Russia brought me to SFedU, the best scientific center in the south of Russia. Not only did it give me an opportunity to get high-quality education in Russia, but it also taught me to put my knowledge to use. I found a lot of friends and learnt Russian here. Pursuing my postgraduate studies, I continue getting in-depth knowledge in my field, reading plenty of books in Russian.*

*I'm a Master's student at the Faculty of Law. It seems to me that SFedU is a great choice for international students. It boasts comfortable dormitories, good preparatory Russian language courses and a very beautiful botanic garden. Rostov-on-Don amazed me with its sights at once. Also, if you wish, you can work and get good wages here. I think every student will fall in love with this city like I did.*

*We came to SFedU to take Russian language courses. From the very beginning of the semester, we studied interesting subjects such as cultural studies, speech practice, practical grammar, and mass media language. We visited theaters, took part in concerts with other foreigners and traveled a lot all over Rostov-on-Don and the Rostov Region. We'd like to express our deep gratitude to our teachers and all university staff members who made our stay in Rostov-on-Don unforgettable!*
