Scientific activity

Experience in science more than 40 years.

Research area: social psychology of communication and expressive behavior.

Research interests: Social psychology of communication; Psychology of expressive behavior; Psychology of interpersonal cognition; Psychology of appearance; Socio-psychological factors of attitudes towards the discrimination of Another; The psychology of envy; Social Psychology of transformation of views about the enemy and friend.

In the framework of this direction is formulated theoretical and methodological principles of the study of expressive behavior; structural-functional model of nonverbal means of communication; identified the main

characteristics of the interpretation of non-verbal expressive behavior; developed a theoretical framework for the analysis of nonverbal interaction; the structure of the social-perceptual abilities of the individual in the context of studying social and emotional intelligence.

As part of this trend of cultural-psychological, socio-psychological and gender factors in the design and transformation of the external appearance of man, develops value-semantic approach to the external appearance of a person; the regularities of the effects of concern and satisfaction with appearance in relation to it; the parsed representation of a beautiful woman; the relationship between ethnic identity and adopting Other discriminatory behaviour directed at persons with a various type of appearance.

We developed a theoretical scheme for the analysis of the individual as a subject of communication and a socio-psychological portrait of the subject of the difficulty of communication; identification of the socio-psychological determinants of the transformation of ideas of another as friend and enemy; describes the phenomenon of "total communication difficulties" in connection with the study of jealousy, the phenomenon of manifestation of hope at different stages in life; examines the socio-psychological factors of discriminatory attitude of the youth towards ethno-cultural groups; defines the role of aggressive and hostile behavior of youth in mainstreaming of discriminatory practices; developed a socio-psychological model of ethnolookism.

Scientific and organizational activities

Organizer and co-organizer of several all-Union (1982;1990); national and international (1997, 2000, 2003, 2006, 2009, 2010, 2012,2013,2014,2015, 2016) conferences; member of many scientific, practical and methodological conferences at various levels.
